

Natalie Micale Schultz Website Questionnaire + Strategy Brief

Purpose of this document

This brief translates the standard Marigold One11 website questionnaire into a strategic website direction for Natalie Micale Schultz. The goal is to give the website team the practical answers they need while also clarifying the positioning, offer architecture, site map, content needs, and business goals behind the website.

This website should not position Natalie as a general freelancer, execution-based marketer, or agency. The website should position Natalie as a former agency founder, Tory Burch Fellow, and strategic growth partner helping founder-led businesses and growth-stage companies clarify their story, sharpen their positioning, and turn scattered momentum into focused growth.

SECTION 1: BUSINESS OVERVIEW

1. Business Name

Natalie Micale Schultz

2. Contact Name

Natalie Micale Schultz

3. Email Address

hello@nataliemicaleschultz.com

4. Phone Number

832-541-0029

5. Business Address

Can we not put this out publicly?

6. Brief Description of the Business

Natalie Micale Schultz is a former agency founder, Tory Burch 2023 Fellow, and strategic growth partner who helps founder-led businesses and growth-stage companies turn unclear stories into focused growth.

Natalie works at the intersection of brand strategy, positioning, messaging, offer clarity, value ladder development, customer insight, AI-enabled systems, and strategic growth planning.

Her work is designed for businesses at an inflection point: companies with traction, momentum, complexity, or untapped potential whose unclear messaging, brand strategy, or positioning is starting to hinder future growth.

Natalie helps founders and teams clarify the story first, then turn that clarity into a concrete strategy and plan for telling that story in the market.

She offers premium brand strategy engagements and ongoing growth partner retainers for founders and teams who need senior-level strategic clarity without hiring another agency.

7. Mission and Vision

Note: This mission and vision are working drafts and may evolve after deeper voice and tone development.

Mission

To help founder-led businesses and growth-stage companies find the white space, clarify the message, sharpen the offer, and focus on the growth moves that actually matter.

Vision

To become a trusted strategic partner for founders and leadership teams who are ready to grow with more clarity, discipline, and leverage — not more noise, scattered marketing activity, or generic strategy.

Natalie's work exists to help businesses move from unclear story and scattered momentum to focused growth.

8. Target Audience / Customer Base

The website should speak to two primary audiences.

Primary Audience 1: Early-Traction Founders

Founder-led businesses typically between \$100K and \$3M in revenue.

They have:

- Proof that something is working
- Customers, sales, or early market traction
- A founder who is moving fast but may feel scattered
- Too many ideas or unclear priorities
- Messaging, positioning, or brand strategy that is not yet clear enough to support the next phase of growth
- An offer or value ladder that needs refinement
- A need for ongoing strategic clarity
- Ability to execute, but a need for sharper direction

Best fit for: Early-Traction Growth Partner Retainer

Primary Audience 2: Established Founder-Led Brands / Growth-Stage Companies

Companies that may be larger, more established, or entering a new phase of growth. This could include companies doing \$3M, \$10M, \$50M, \$100M+ or more.

They may need:

- Brand repositioning
- Messaging clarity
- Customer or stakeholder research
- Competitive/category analysis
- Value ladder or offer architecture
- Website messaging direction
- Internal/external brand alignment
- A premium strategic partner before a major website, campaign, or growth initiative
- A clearer story so future marketing, sales, content, hiring, or growth work can happen more effectively

Best fit for: Premium Brand Strategy Engagement

9. What Sets the Business Apart

Natalie's work is different because she combines founder experience, agency-building experience, brand strategy, growth thinking, customer insight, and practical systems.

She is not a traditional marketing freelancer or execution-based agency.

Her differentiators include:

- Former agency founder who understands the founder seat from the inside after exiting her own business in 2025.
- Brand strategist who has worked with enterprise and startups at the 1M to 500M mark
- Tory Burch 2023 Fellow and entrepreneur with a strong business-building lens
- Ability to identify the white space and market tension inside a business
- Ability to clarify the story before jumping into execution
- Strategic clarity across brand, offer, customer, content, and revenue priorities
- Experience translating complex business ideas into clear positioning and practical next steps
- Ability to help founders and teams see what they cannot see from inside the business
- AI fluency used for leverage and clarity, not generic AI output
- Strong ability to move from insight to activation through 60–90 day roadmaps

10. Values / Themes the Website Should Reflect

The website should reflect:

- Strategic clarity
- Founder-level thinking
- Focused growth
- White space and differentiation
- Story clarity before execution
- Practicality over fluff
- Premium but approachable expertise
- Warm confidence

- Smart, direct communication
- Modern business strategy
- Human insight over generic AI output
- Leverage, not chaos
- Momentum with discipline
- Brand strategy that connects to revenue

SECTION 2: WEBSITE GOALS AND OBJECTIVES

1. Main Goals of the Website

The primary goals of the website are:

- Communicate Natalie's evolved positioning clearly
- Establish credibility as a former agency founder, Tory Burch 2023 Fellow, and strategic growth partner
- Explain the difference between premium brand strategy and growth partner retainers
- Generate qualified leads for high-ticket strategy and retainer work
- Filter out low-budget, idea-stage, or execution-only inquiries
- Showcase Natalie's strategic thinking, framework, and founder-level perspective
- Build trust with founder-led businesses and growth-stage companies
- Create a professional home base for referrals, warm leads, and network introductions
- Help prospective clients understand that unclear story, positioning, and messaging can block future growth

The website should function as a credibility and conversion hub, not just a portfolio.

2. Specific Actions Visitors Should Take

Primary action: Book a Consultation

Secondary actions:

- Explore Brand Strategy Engagements
- Explore Growth Partner Retainer
- Read About Natalie
- Review case studies / proof
- Submit a contact form

The website should make it easy for qualified prospects to take the next step without making Natalie feel overly available for low-fit inquiries.

3. Problems the Website Should Solve

The website should solve the following business problems:

- Natalie's current positioning may still be perceived as freelance marketing or project-based execution
- Potential clients may not yet understand the difference between brand strategy, growth strategy, and marketing execution

- Natalie needs a clear way to communicate premium services without rebuilding an agency
- Warm referrals need a place to understand what Natalie does now
- Larger companies need to see that Natalie can handle serious brand strategy work
- Early-traction founders need to understand the retainer model and how it helps them scale with clarity
- The site needs to filter out leads who want social media management, CRM execution, email marketing execution, or general marketing tasks
- Prospective clients need to understand that story clarity comes before effective growth execution
- The website should reposition Natalie as a senior strategic partner, not a generalist marketer.

4. KPIs to Track

Simple KPIs to track:

- Conversion rate from website visitor to inquiry
- Number of people who fill out a contact form

Primary business goal for the next 12 months:

Land 3–4 Growth Partner Retainers at \$3K–\$5K/month and 2–3 premium Brand Strategy Sprints at \$7k–\$12k, while leaving room for 2 \$15K–\$30K+ brand strategy projects from established companies.

SECTION 3: DESIGN PREFERENCES

1. Existing Website

Natalie does not currently have an existing live website.

Domain: NatalieMicaleSchultz.com

2. Current Website Likes / Dislikes

Not applicable because there is no current website.

3. Websites / Design References Natalie Admires

Natalie will provide visual direction, design references, and aesthetic inspiration separately.

She would like the Marigold One11 team's strategic opinion on the visual direction and whether it needs refinement, polish, or adjustments to better support the positioning of the site.

4. Preferred Color Palette, Typography, or Design Style

Natalie will provide the preferred design aesthetic separately.

Strategic design direction:

The website should feel:

- Editorial
- Founder-led

- Creative
- Premium
- Strategic
- Modern
- Clear
- Human
- Elevated but not overly corporate
- Warm but not overly soft
- Distinctive without feeling trendy or chaotic

The site should visually support Natalie's positioning as a former agency founder, strategic growth partner, and brand strategist. It should feel polished enough for a growth-stage company or larger brand to take seriously, while still feeling personal and founder-led enough for early-traction entrepreneurs to trust.

5. Existing Logo or Brand Guidelines

Natalie has a logo and brand direction in progress / being redone with Marigold One11.

She will provide existing assets and would welcome Marigold One11's opinion on whether the current visual direction needs refinement to better align with the website's strategic positioning.

6. Specific Features or Functionality

Recommended functionality:

- Contact form
- Consultation inquiry form
- Services overview
- Case studies or proof section
- Testimonials
- Ability to add a blog or insights section later
- Responsive design
- Basic SEO setup
- Analytics tracking

Not needed for launch:

- E-commerce
- Newsletter
- Online course functionality
- Client portal
- Chat functionality
- Appointment scheduling unless recommended by Marigold One11

7. Tone or Personality

The website should convey:

- Editorial

- Founder-led
- Creative
- Strategic
- Clear
- Confident
- Premium
- Human
- Direct
- Smart
- Warm
- Insightful

The tone should not feel:

- Generic agency
- Corporate and cold
- Overly influencer-driven
- Overly playful
- Overly academic
- Execution-heavy
- Like a freelancer marketplace profile

8. Imagery and Visual Elements

Natalie has headshots and brand photos she can provide that do all of this.

Potential imagery direction:

- Strong founder portraiture
- Editorial-style imagery
- Clean, modern layouts
- Strategic use of whitespace
- Visual cues that feel creative, polished, and premium
- Founder-led but not overly personal or lifestyle-heavy

Natalie is also pulling together:

- Case studies
- LinkedIn testimonials
- Existing proof points
- Brand/visual references

SECTION 4: CONTENT & FEATURES

1. Existing Content

Natalie will provide the core website content and assets, including:

- Website copy
- Headshots and brand photography

- Logo / visual identity assets from Marigold One11
- Design aesthetic references
- LinkedIn testimonials
- Three case studies from past client work
- Service positioning and offer descriptions
- Brand strategy framework
- Growth Partner Retainer framework
- Founder story / About page content

Natalie understands the strategic direction for the website content and will provide the copy and core materials. She would like Marigold One11's support organizing the content into a strong website structure, making recommendations on layout and flow.

2. Recommended Website Pages

Recommended launch site map:

1. Home
2. About
3. Brand Strategy
4. Growth Partner Retainer
5. Case Studies / Results
6. Work With Me / Contact

Optional future page:

- Insights / Blog

Natalie does not need a blog at launch. However, she would like the website to be built in a way that allows an Insights or Blog section to be added in the future if it becomes useful for thought leadership, SEO, or publishing strategic content.

3. Page Strategy

Home

Purpose:

The homepage should quickly communicate who Natalie is, who she helps, what problem she solves, and how visitors can work with her.

Primary message:

Natalie helps founder-led businesses and growth-stage companies turn unclear stories and scattered momentum into focused growth.

Key sections:

- Hero statement
- Credibility line: Former agency founder, Tory Burch 2023 Fellow, entrepreneur at the intersection of brand and growth

- Problem section: unclear positioning, messaging, and story can block future growth
- How Natalie helps: brand strategy, growth clarity, value ladder, messaging, activation roadmap
- Two ways to work together: Brand Strategy and Growth Partner Retainer
- White Space Growth Framework overview
- Proof / testimonials
- Call to action: Book a Consultation

About

Purpose:

The About page should establish Natalie's credibility, founder experience, and strategic point of view.

The story should communicate:

- Natalie built and sold a marketing agency
- She understands the founder seat from the inside
- She is a Tory Burch 2023 Fellow
- Her work now sits at the intersection of brand, growth, story clarity, and strategic focus
- She helps businesses clarify the story before investing in more marketing execution
- Her approach is strategic, human, creative, and commercially grounded

The About page should not read like a resume. It should feel like a founder-to-founder credibility story.

Brand Strategy

Purpose:

This page should sell Natalie's premium project-based strategy work.

Positioning:

For companies that need to clarify the story, sharpen the positioning, define the white space, and create a strategy before investing in major execution.

Best for:

- Rebrands
- Website strategy
- Brand repositioning
- New market opportunities
- Founder-led brand development
- Messaging clarity
- Offer/value ladder strategy
- Larger companies or growth-stage brands needing a strategic reset

Core framework:

The White Space Growth Framework

1. Discover the Truth

2. Find the White Space
3. Shape the Message
4. Activate the Strategy

Potential deliverables:

- Discovery and intake
- SWOT analysis
- Customer or stakeholder interviews
- Competitive/category review
- Audience clarity
- Positioning strategy
- Brand personality
- Messaging framework
- Value ladder / offer architecture
- Founder or company narrative
- Content direction
- Website messaging direction
- 60–90 day activation roadmap

Investment language:

Brand strategy engagements begin at \$7,500. Larger repositioning and growth-stage brand strategy projects are custom-scoped and may range from \$15,000–\$50,000+ depending on research depth, stakeholder involvement, and deliverables.

Growth Partner Retainer

Purpose:

This page should explain the recurring strategic retainer and make it feel concrete, premium, and valuable.

Positioning:

For early-traction founders who have proof something is working but need ongoing strategic clarity to scale with more focus.

Best for:

- Founder-led businesses typically between \$100K and \$3M in revenue
- Founders with traction but unclear priorities
- Businesses with scattered marketing and sales ideas
- Founders who need high-level strategic direction but do not need another agency
- Teams that can execute but need a clearer plan

Natalie's role:

- High-level marketing and sales ideation
- Offer and value ladder refinement
- Positioning and messaging direction

- Customer journey insights
- Content and campaign strategy
- AI and systems leverage recommendations
- 60–90 day growth roadmap
- Founder decision support
- Monthly priority mapping
- Start / Stop / Double Down recommendations

What this is not:

- CRM execution
- Social media management
- Email marketing execution
- Ad management
- Daily project management
- Website development
- Vendor management
- Acting as the marketing department

Investment language:

Growth Partner retainers begin at \$3,000/month with a 90-day minimum engagement.

Case Studies / Results

Purpose:

This page should provide proof that Natalie's strategic thinking creates clarity and business value.

Content to include:

- Testimonials from LinkedIn
- Three case studies from past client work
- Brand strategy transformations
- Founder clarity stories
- Agency proof points
- Examples of strategic frameworks or outcomes

Case studies do not need to be overly long. They should show:

- The challenge
- The strategic insight
- What Natalie clarified
- What changed
- The outcome or value created

Work With Me / Contact

Purpose:

This page should help prospects identify the right service pathway and submit a qualified inquiry.

Recommended structure:

1. Brief intro: "Not sure where to start?"
2. Service selector:
 - Brand Strategy Engagement
 - Growth Partner Retainer
 - Not sure yet
3. Short explanation of who each offer is best for
4. Inquiry/contact form

Recommended form fields:

- Name
- Email
- Business name
- Website / social links
- Which service are you interested in?
 - Brand Strategy
 - Growth Partner Retainer
 - Not sure yet
- What stage is your business in?
- Approximate annual revenue range
- What are you hoping to clarify or solve?
- What does success look like over the next 6–12 months?
- Desired timeline
- Anything else Natalie should know?

Primary CTA:

Book a Consultation

SECTION 5: TECHNICAL REQUIREMENTS

1. Domain Name

Natalie owns the domain: NatalieMicaleSchultz.com

2. Hosting Provider

Natalie currently uses Hostinger and would prefer to continue owning and maintaining her hosting if possible.

She would like Marigold One11's recommendation on the best way to proceed with Hostinger based on the website build, platform, performance, maintenance, and ease of future updates.

3. Specific Technical Features Needed

Recommended technical requirements:

- Responsive design for desktop, tablet, and mobile
- Fast-loading pages
- Simple, clean navigation
- Contact / inquiry form
- Analytics tracking
- Basic SEO setup
- Ability to add future Insights / Blog content if needed
- Ability to update testimonials and case studies
- Easy back-end editing for simple updates
- Strong mobile experience, since many visitors may come from social media or referrals
- Spam protection on forms
- Basic accessibility best practices

Not needed for launch:

- E-commerce
- Course platform
- Membership functionality
- Client portal
- Chatbot
- Newsletter integration unless Marigold recommends a simple future-ready setup

4. Desired Website Launch Date

Natalie would like to launch the website in mid to late September.

Strategic recommendation:

Launch should prioritize clarity and quality over overbuilding. A clean, strategic version of the site with the core pages is better than waiting for a large, content-heavy site.

SECTION 6: BUDGET & ONGOING SUPPORT

1. Budget for the Website Project

This project is part of a trade agreement with Marigold One11.

Natalie will leave this section blank or defer to the terms of the existing trade agreement.

2. Ongoing Support or Maintenance

Natalie would like Marigold One11's recommendation for ongoing support and maintenance based on the trade agreement and the platform/build approach.

Likely needs may include:

- Basic website maintenance
- Occasional content updates
- Case study updates

- Testimonial updates
- Small copy or page edits as offers evolve
- Technical/plugin/security updates depending on platform

Natalie does not anticipate needing heavy ongoing support unless recommended by Marigold One11.

3. Training to Manage Website Content

Yes, Natalie would like basic training or documentation on how to update simple content, including:

- Testimonials
- Case studies
- Service page language
- Images
- Contact form details
- Future Insights / Blog content if added later

Natalie may prefer to have Marigold One11 handle larger structural, design, or technical updates.

SECTION 7: DIGITAL MARKETING & AUTOMATION

1. Digital Marketing to Support the Website

Natalie does not need a heavy digital marketing funnel at launch.

The website's first job is to serve as a premium credibility and conversion hub for warm referrals, network introductions, social/profile traffic, and qualified prospects.

Future digital marketing may include:

- LinkedIn thought leadership
- Instagram/profile traffic
- SEO-driven insights content
- Case study promotion
- Referral-driven landing pages
- Future newsletter or insights list if useful

2. Marketing Tools or Functionalities Needed

Recommended for launch:

- Google Analytics or preferred analytics tracking
- Simple contact form tracking
- Basic SEO setup
- Metadata/page titles/descriptions
- Social sharing preview image setup
- Optional event tracking for inquiry form submissions

Not required at launch unless recommended:

- Facebook/Meta pixel
- Google Ads conversion tracking
- Email marketing automation
- Retargeting ads
- CRM automation
- Chatbot
- Workflow triggers

3. ONE11 Suite / Backend Support and Marketing Automation

Natalie is open to learning what Marigold One11 recommends, given in the trade agreement
Natalie has access to the ONE11 Suite.

ADDITIONAL NOTES

- The site should be designed and written to communicate premium strategy, not general marketing execution.
- The key business tension the website must solve: Natalie wants to attract both early-traction founders who need ongoing strategic guidance and larger growth-stage companies that may need premium brand strategy or repositioning work.
- The website should not over-index on “\$100K+ founders” in a way that makes larger companies think the work is not for them. Instead, the broader positioning should be:
- Brand strategy and growth clarity for founder-led businesses and growth-stage companies at an inflection point.
- Then, within the Growth Partner Retainer page, the more specific audience can be named as founder-led businesses typically between \$100K and \$3M in revenue.

Core strategic idea:

- Many businesses have momentum, but their unclear story, positioning, messaging, or value ladder is blocking the next stage of growth. Natalie helps clarify the story first, then creates the strategy and plan to tell that story in the market.
- Primary CTA: Book a Consultation
- Launch priority: **A clean, strategic, polished website by mid-to-late September that communicates Natalie’s evolved positioning and supports qualified inquiries for premium brand strategy and growth partner retainers.**

OFFER NOTES FOR WEBSITE TEAM

The website does not need to publish every internal scope guardrail, but it should clearly communicate the shape, value, and boundaries of Natalie's offers so prospects understand what they are buying.

Primary Offer 1: Brand Strategy Engagements

This is Natalie's premium project-based offer for founder-led brands, leadership teams, and growth-stage companies that need to clarify the story before investing in more marketing, website work, campaign execution, or sales activity.

Core promise:

Natalie helps companies find the white space, name the market tension, clarify the story, sharpen the positioning, and turn that clarity into messaging and a 60–90 day activation plan.

Recommended website language:

Brand Strategy Engagements are for businesses that need clearer positioning, messaging, offer architecture, customer insight, and market differentiation before making their next major growth move.

Potential investment language:

Brand strategy engagements begin at \$7,500. Larger repositioning and growth-stage brand strategy projects are custom-scoped and may range from \$15,000–\$50,000+ depending on research depth, stakeholder involvement, and deliverables.

Primary Offer 2: Growth Partner Retainer

This is Natalie's recurring strategic advisory offer. It should be positioned as access to Natalie's senior-level thinking, brand strategy experience, marketing judgment, and growth clarity — not an hourly consulting package.

Core promise:

Natalie helps early-traction founders turn scattered marketing, sales, and brand ideas into a focused growth plan, then stays close enough to guide strategy, pressure-test decisions, review selected outputs, and help the founder/team stay focused without becoming the execution team.

Recommended website language:

The Growth Partner Retainer is for founder-led businesses with traction, but too much noise around what to do next. Each retainer includes a defined advisory cadence with private strategy calls, monthly growth priorities, selected strategic reviews, async decision support, and clear next steps for the founder or team to execute.
